

## MaaT Pharma Announces Resignation of an Independent Board Member

**Lyon, France, May 10<sup>th</sup>, 2022 – 6:00pm CET – [MaaT Pharma \(EURONEXT: MAAT – the “Company”\)](#), a French clinical-stage biotech and a pioneer in the development of microbiome-based ecosystem therapies dedicated to improving survival outcomes for patients with cancer** announced today the resignation of Mrs. Martine George from her position as member of the Board of Directors for personal reasons, with effect from June 1<sup>st</sup>, 2022. Her mandate will therefore not be renewed at the Annual General Meeting scheduled on May 31<sup>st</sup>, 2022.

The Board of Directors of the Company would like to thank Mrs. George for her contribution to the Board throughout her time in office. Starting June 1<sup>st</sup>, 2022, the Board of Directors will be composed of 6 members, including 3 independent members, and will be looking to fill the open position with a member that meets the development needs of MaaT Pharma.

### About MaaT Pharma

MaaT Pharma, a clinical stage biotechnology company, has established a complete approach to restoring patient-microbiome symbiosis in oncology. Committed to treating cancer and graft-versus-host disease (GvHD), a serious complication of allogeneic stem cell transplantation, MaaT Pharma has launched, in March 2022, a Phase 3 clinical trial for patients with acute GvHD, following the achievement of its proof of concept in a Phase 2 trial. Its powerful discovery and analysis platform, gutPrint®, supports the development and expansion of its pipeline by determining novel disease targets, evaluating drug candidates, and identifying biomarkers for microbiome-related conditions. The company’s Microbiome Ecosystem Therapies are produced through a standardized cGMP manufacturing and quality control process to safely deliver the full diversity of the microbiome, in liquid and oral formulations. MaaT Pharma benefits from the commitment of world-leading scientists and established relationships with regulators to support the integration of the use of microbiome therapies in clinical practice.

MaaT Pharma is the first company developing microbiome-based therapies listed on Euronext Paris (ticker: MAAT).
