

MaaT Pharma is a clinical-stage biotechnology company and industry leader in microbiome therapies in oncology, leveraging our whole ecosystem restoration approach to develop biotherapies to treat serious diseases.

We are implementing an innovative new medical approach focused on the gut microbiota as a source of drug candidates, leveraging our drug development expertise, our gutPrint® computational biology platform and our biomanufacturing capabilities. Our pipeline consists of several drug candidates, the first of which is now in Phase 3 clinical testing.

We are driven by our pioneering spirit, and we are the first microbiome-derived drug development company listed in continental Europe; we listed on Euronext Paris on November 8, 2021.

We have a humanistic approach to our entrepreneurial adventure. Every recruitment is an opportunity to consolidate our rich and diverse human capital, which will soon reach 50 people.

Currently based in Lyon (69007), we are looking for:

Microbiome Scientist (M/F) – Permanent - Full time
Position able to people with disabilities

Job description

By joining MaaT Pharma, you will have the opportunity to participate in the development and production of solutions at the cutting edge of pharmaceutical innovation. Reporting to the Responsible of the gutPrint® bioinformatics platform, you will occupy a versatile position at the heart of our company's pharmaceutical development challenges.

Main responsibilities

- Thoroughly analyze and interpret human gut microbiota data using bioinformatics tools and all available data and metadata, including literature
- Participate in the integration of omics data from different projects to identify key organisms or functions and help understand action mechanisms
- Participate in the analysis of data from projects with the bioinformatics tools available on the gutPrint® platform
- Contribute to the scientific valuation of results (reports, scientific communications, publications, patents) and ensure a scientific and technological watch
- Coordinate sequencing activities
- Participate in the drafting and implementation of quality documents and participate in the management of discrepancies.

As you can see, this is a position at the heart of our product development activity that will allow you to discover a demanding but exciting world!

Qualifications and experience

To succeed and grow with us, you ideally have:

- A Master's degree or PhD in biology, such as microbial ecology or microbiology with a specialization or significant experience in the analysis and interpretation of omics data (metagenomics, metabolomics)
- Solid knowledge of the human gut microbiota, its taxonomic composition, and metabolic functions
- Knowledge in human physiology and immunology will be a plus
- An expertise in statistics and data visualization
- Good knowledge of NGS data handling and analysis as well as high throughput sequencing methods
- You are comfortable with the R and Bash languages
- The ideal candidate will have excellent communication and organizational skills. He/she will be able to work in a transversal way and prioritize his/her activities through various projects
- Ability to communicate and write in French and English is necessary.

You have good interpersonal skills, you are a good communicator (able to explain solutions in simple terms), dynamic and you have a good ability to adapt in complex project contexts.

Dynamism, agility, ability to listen, proactivity, must be a problem-solver, highly organized with an attention to detail, and a very good team spirit and synthesis are all qualities we are looking for in this great opportunity.

Working at MaaT Pharma is

A friendly and stimulating work environment with challenges, within a passionate team and an opportunity to develop your skills and grow. If you are motivated to join a curious and passionate team of human size evolving in an entrepreneurial, face-paced, and innovative environment, then join us by sending your resume and cover letter to the Human Resources Director, Emmanuel Burkel at careers@maat-pharma.com

MaaT Pharma is committed to diversity and respect for legislation in its recruitments.
