

MaaT Pharma is a clinical-stage biotechnology company and industry leader in microbiome therapies in oncology, leveraging our whole ecosystem restoration approach to develop biotherapies to treat serious diseases.

We are implementing an innovative new medical approach focused on the gut microbiota as a source of drug candidates, leveraging our drug development expertise, our gutPrint® computational biology platform and our biomanufacturing capabilities. Our pipeline consists of several drug candidates, the first of which is now in Phase 3 clinical testing.

We are driven by our pioneering spirit, and we are the first microbiome-derived drug development company listed in continental Europe; we listed on Euronext Paris on November 8, 2021. We have a humanistic approach to our entrepreneurial adventure. Every recruitment is an opportunity to consolidate our rich and diverse human capital, which reached 50 people.

The position will be mainly based in Saint Quentin Fallavier (38), with occasional travel to the company's headquarters in Lyon 7ème. We are looking for a :

Supply Chain Specialist (M/F)

Position able to people with disabilities

Job description

By joining MaaT Pharma, you will have the chance to participate in the development and production of solutions at the cutting edge of pharmaceutical innovation. Your main role will be to organize the shipment of raw materials to the production site and the shipment of finished products to customers (hospitals) and investigation centers.

Main responsibilities

- Ensure the delivery of drugs and medical devices; in partnership with subcontractors for production and distribution and investigation centers ;
- Ensure and manage the supply of raw materials and other components necessary for the production of drugs ;
- Manage and optimize the supply of medical devices in relation with distribution partners and subcontractors ;
- Propose, evaluate and implement processes and systems to optimize the supply chain and ensure return on investment ;
- Collect requirements, analyze forecasts, plan production campaigns ;
- Write RFPs (Request For Proposal);
- Select appropriate subcontractors for new studies ;
- Review new contracts from a technical perspective to assess feasibility ;
- Manage inventory ensuring proper working capital management and timely product supply ;
- Participate in the annual performance review of the Supply Chain players.

As you will have understood, this is a position at the heart of our development activity of our various products that will allow you to discover a demanding and exciting world!

Qualifications and experience

- Minimum of 4 years in Supply Chain education ;
- Minimum 3 years experience in the pharmaceutical or biotech industry, with supply chain experience ;
- Experience working in an ERP environment ;
- Good knowledge of manufacturing processes in a pharmaceutical environment ;
- Supply Chain Knowledge ;
- Knowledge of the regulatory environment (GMP, GLP, ICH, EP) is a plus ;
- Project Management skills ;
- Excellent teamwork and cross-functional skills ;
- Problem solving skills; Pragmatism and reliability ;
- Organizational skills ;
- Fluency in English, both oral and written.

You have good interpersonal skills, you are a good communicator (able to explain solutions in simple terms), dynamic and you have a good ability to adapt in complex project contexts.

Dynamism, ability to listen, proactivity, rigor and a very good team spirit and synthesis are all qualities we are looking for in this great opportunity.

Working at MaaT Pharma is

A friendly and stimulating work environment with challenges, within a passionate team... and also the opportunity to develop your skills and grow.

If you are motivated to join a curious team of human size and evolving in an entrepreneurial and innovative environment, then join us by applying for this offer!

If you are interested in this job at MaaT Pharma and you meet the criteria above, please send an email with your resume and your motivation to: careers@maat-pharma.com.
