

## Job Opening

MaaT Pharma is a clinical-stage biotechnology company and industry leader in microbiome therapies in oncology, leveraging our whole ecosystem approach to develop biotherapies to treat serious diseases. We are implementing an innovative new medical approach focused on the gut microbiota as a source of drug candidates, leveraging our drug development expertise, our gutPrint® computational biology platform and our biomanufacturing capabilities. Our pipeline consists of several drug candidates, the first of which is now in Phase 3 clinical testing.

We are driven by our pioneering spirit and are the first microbiome-derived drug development company listed in continental Europe, with an IPO on Euronext Paris in November 2021. We have a humanistic approach to our entrepreneurial adventure. Every recruitment is an opportunity to consolidate our rich and diverse human capital, which now exceeds more than 50 people.

Currently based in Lyon (69007), we are looking for:

### **Clinical Scientist Hematology (M/F)**

*Position open to people with disabilities*

#### **Job description**

Reporting directly to the clinical development director, you will work with the clinical team on the development of innovative therapies within MaaT Pharma.

#### **Main responsibilities**

- Providing medical expertise (medical review during clinical trials);
- Developing scientific expertise on the clinical development of assigned products;
- Contributing strategically to the clinical development plan, with knowledge of scientific and medical advances in the field;
- Contributing to innovation and the creation of intellectual property in collaboration with the Company's various teams;
- Acting as clinical representative within the study management teams to ensure clinical/ scientific integrity of the product and to provide qualitative subjective data;
- Interacting regularly (including on-site visits) with clinical sites to ensure qualitative communication between the company and the investigational sites (site training);
- Developing and writing relevant clinical documents such as study protocols, study procedure manuals, informed patient consent, written responses to ethics committees/regulatory authorities, clinical study reports and scientific publications;
- Partnering with the medical staff and KOL in hematology;
- Providing regular follow-ups and preliminary assessments of clinical results in collaboration with the clinical project leaders for review and approval;
- Writing and/or reviewing publications, collaborative abstracts, posters and content for clinical programs, scientific meetings and conference, and contribute to the generation of a communication/ publication plan;
- Participating to international scientific conferences and providing updates on medical advances in the field to the Company's team.

As you can tell, this is a position at the heart of our product development activity. This will for sure allow you to dive into an environment with high standards and passion.

## Job Opening

### Qualifications and experience

- Medical degree, specialized in hematology;
- Experience in clinical trials is mandatory;
- Experience in hematopoietic stem cell transplantation would be highly appreciated;
- Experience in pharmaceutical industry would be a plus;
- Good knowledge about clinical trial documentation and good clinical practice;
- Ability to organize and prioritize;
- Strong team spirit;
- Professional awareness and integrity;
- Pragmatic/hands-on approach;
- Ability to work within a team and multidisciplinary & matrix environment;
- English (written and spoken).

You are a good communicator (able to explain solutions in simple terms) with strong interpersonal skills and have a good ability to adapt in complex project contexts.

Dynamism, ability to listen, proactivity, rigor and a very good team spirit and synthesis are all qualities we are looking for in this great opportunity.

**Working at MaaT Pharma means** working in a friendly and stimulating work environment with challenges, within a passionate team with the opportunity to develop your skills and grow.

If you are motivated to join a curious team of human size and evolving in an entrepreneurial and innovative environment, then join us by applying for this offer and send us an email with your resume and your motivation to: [careers@maat-pharma.com](mailto:careers@maat-pharma.com)
