Lyon, France, April 5th, 2024, 7.30am CET – [MaaT Pharma](#) (EURONEXT: MAAT – the “Company”), a clinical-stage biotechnology company and a leader in the development of Microbiome Ecosystem Therapies™ (MET) dedicated to enhancing survival of patients with cancer, announces the initiation of coverage of its stock by Gilbert Dupont.

With a research report named “*Echec et MaaT*”, Gilbert Dupont / Groupe Société Générale initiated coverage of MaaT Pharma on April 4th, 2024 with a Buy recommendation and a Target Price of 16 Euros.

This new coverage strengthens the visibility of MaaT Pharma among French and international institutional investors and adds to the ongoing coverage by the brokerage firms, Kepler Cheuvreux, KBC Securities, Kempen and Portzamparc/Groupe BNP Paribas.

About MaaT Pharma

MaaT Pharma, a clinical-stage biotechnology company, has established a complete approach to restoring patient-microbiome symbiosis in oncology. Committed to treating cancer and graft-versus-host disease (GvHD), a serious complication of allogeneic stem cell transplantation, MaaT Pharma has launched, in March 2022, an open-label, single-arm Phase 3 clinical trial in patients with acute GvHD, following the achievement of its proof of concept in a Phase 2 trial. Its powerful discovery and analysis platform, gutPrint®, enables the identification of novel disease targets, evaluation of drug candidates, and identification of biomarkers for microbiome-related conditions. The company’s Microbiome Ecosystem Therapies are produced through a standardized cGMP manufacturing and quality control process to safely deliver the full diversity of the microbiome in liquid and oral formulations. MaaT Pharma benefits from the commitment of world-leading scientists and established relationships with regulators to support the integration of the use of microbiome therapies in clinical practice. MaaT Pharma is listed on Euronext Paris (ticker: MAAT).
